# BATTLE TO REACH ENTOMBED MEN

## MANY PERSONS KILLED IN NEW MINE DISASTER

Rescue Workers Busy Trying to Reach Small Group Although They Are Believed Dead—Explosion Was Second Disaster Within Few Days—Thirty-Six Known Dead.

(Associated Press Leased Wire)  
SHANKSTOWN, Pa., Jan. 28.—Hindered by water and gas, mine rescue crews who have been working in relation without ceasing since Saturday night, continue battling today to reach a small group of miners still entombed in the Lancaster mine. The mine is about a mile from the town of Shankstown.

The bodies of 31 men who died as the result of an explosion of gas in the mine late yesterday and last night and placed in an emergency hospital at Starford, about a mile from here.

The bodies of five other men have been located. J. D. Barker, engineer of the Bureau of Mines at Pittsburgh, in charge of the rescue work, said four others, it is believed, are yet to be found.

John Rico, of Starford, risked his life in leading nine other miners to safety shortly after the blast and three other men escaped by an air passageway.

State troopers are maintaining a patrol around the mine and Red Cross and Salvation Army workers are adjoining.

The majority of the victims of the disaster are married. Joseph Valenzuela, Secretary of Mines, told Pennsylvania Superintendent of the Mines, were expected to reach here today from Harrisburg and Philadelphia, respectively, to conduct investigations of the accident.

**BURIAL OF ILLINOIS VICTIMS IS BEGUN**  
(Associated Press Leased Wire)  
JOHNSTON CITY, Ills., Jan. 28.—Twelve of the 32 miners killed Friday in the explosion in the East Side Colliery of the Crerar Clinch Coal Company mine here will be buried today and the bodies of others will be laid to rest tomorrow and Wednesday of this week.

Mayor W. H. Grant has issued a proclamation, declaring today a day of mourning and schools will be closed and business suspended during the three-day ceremonies of burial.

Officials working in the interests of the Illinois mine workers early this morning completed their first day's investigation into the cause of the explosion and as result of A. W. Kerr, counsel for the Illinois mine workers, and George R. Stone, district counsel for the local miners' union, were called to assist in further investigations.

It was learned from an authentic source that rumors that the Crerar Clinch Company had failed to live up to State's safety laws and would be investigated by union and federal officials, were unfounded.

**U. S. Hockey Team Scores Victory**  
(Associated Press Leased Wire)  
CHAMONIX, France, Jan. 28.—The United States hockey team scored an easy victory in its first match in the Winter sports of Olympic games today, defeating Belgium team by the score of 19 to 10.

Sweden defeated Switzerland, 9 to 0, in the first of the ice hockey matches of the Olympic games, played here today.

The American teams lead Belgians 3 to 0 in the second period, the score, United States, 13; Belgium, nothing.

The Americans simply tied up the Belgians during the first period. Drury, Rice and McCarthy promptly got their combination working, completely breaking down the Belgian defense.

## TOWN TOPICS

A meeting of the Good Government Club has been called for half-past seven o'clock tonight in the auditorium of the Masonic Temple. Steps looking to the successful passage of the city charter bill and its ratification at the polls on April 1st are expected to be discussed at the meeting. It is also anticipated that the club will put into the field a full councilman ticket for the June election as it did four years ago when the present council was elected.

The Third Annual meeting of the Young Women's Christian Association will be held this evening at 8 o'clock in the living room of the Y. W. C. A. In addition to the interesting program has been arranged. All members of the Young Women's Christian Association and other interested friends of the organization are invited.

Firemen were called out at 4:45 o'clock on Sunday morning by a telephone message informing them that a fire had broken out in the rear of the Connell-Moore grocery store, just below the Y. W. C. A. Firemen hastily responded, burst in the door and extinguished leaping flames with chemicals. A wooden box half-filled with ashes was partly destroyed and the fire caused the fire.

The fire chief also stated that a few feet from the blaze firemen found a five-gallon container filled with gasoline which fortunately did not become ignited. Chief Mitchell was in touch with the chief of police this morning, declaring that steps would be taken under a city ordinance which prohibits the placing of ashes in wooden or metal boxes.

The decisions committee of the Community Welfare Association will meet at five o'clock today to discuss the handling of a complex case which is at present before the welfare organization.

P. H. Drewery, who was struck and injured a few nights ago by Police Officer R. A. Adams' automobile, was removed today to Edmunds hospital for the purpose of having x-ray pictures made to determine more accurately the injuries sustained. The plates are being examined to reveal if any fractures were sustained.

Danville motorists reported an accident which took place on Sunday night just beyond Pelham at seven o'clock when a Dodge Sedan, occupied by two men and a young lady, left the concrete road and turned over down an embankment.

The full identity of the party was not revealed but the young lady was reported to be a Miss Duff from Spry, N. C. on her way to visit a relative in a local hospital. The accident appears to have been due to brilliant lights. Those on the scene were dimmed while a car coming in the opposite direction was passing.

The oncoming car's lights were not dimmed, it is said, and the confusion resulting from the glare caused the car to leave the road. The machine was extensively damaged, but the occupants sustained no more serious than cuts and bruises.

**Awaiting Word From Henry Ford**  
(Associated Press Leased Wire)  
WASHINGTON, Jan. 28.—Still awaiting word from Henry Ford as to whether he will appear at the committee hearing today or tomorrow, the military committee proceeded today with its hearings on the subject under discussion which is called for their conclusion not later than Wednesday.

In a telegram sent by Chairman Kahn Saturday, Mr. Ford was requested to testify before the committee either today or tomorrow. When the committee went into session today no reply had been received to the message.

The local promoter was awaiting the fact that it is a Sunday. The local promoter was awaiting the fact that it is a Sunday.

Further answer this afternoon. The moment he secures a date on which the exhibition can be held he will proceed to advertise the event. Considerable interest is displayed in the forthcoming exhibition and it is expected that fans from the entire section will be here to give Jack the once-over and to profit by this unusual opportunity of seeing the world champion.

confirmed the telegram at the telephone office thinking that perhaps error had occurred in transmission. He found that Kearns had set February 17th possibly ignorant of the fact that it is a Sunday.

## RUSSIA PAYS A GREAT TRIBUTE TO DEAD LEADER

(Associated Press Leased Wire)  
MOSCOW, Jan. 28.—The body of Nicolai Lenin lies in an unfinished tomb in the shadow of the Kremlin, while a half million people paid tribute to the man they honored as the "commander of a new humanity." The casket rests on an elevated platform in the Mausoleum of the Sunken central chamber over the door of which is the word "Lenin." The double wooden walls are filled with sawdust so that the temperature may be maintained at three degrees below zero. Over these walls and from the ceiling hang draperies, red and black, bearing the imprint of the sickle and the hammer, the symbols of the state.

Never has Russia seen a ceremony more impressive than the entombment of Lenin. Beginning early in the morning before the civil mass of the house of unions, thousands gathered in the vicinity of Red Square awaiting the coming of the funeral procession. It was thirty degrees below zero.

During the march, the pall bearers were segregated at intervals and the high official of Soviet Russia took their turn in helping to carry the casket.

At the tomb Evdokimoff, a central committee man, extolled Lenin as "The international genius of the workers' revolution," a man who stood on the threshold of a "new epoch of the ages."

There was a peal of bells, the boom of cannon and a salute from factory whistles as the casket was lowered into the tomb. Thousands bowed their heads and sang communist hymns.

Throughout Russia whistles blew and railway trains halted and there were five millions in silence.

**Chatham Term of Court Is Resumed**  
(Special to The Bee)  
CHATHAM, Va., Jan. 28.—The Chatham Circuit Court resumed its session today after a week's adjournment during which Judge Turner Clement was called to Prince Edward county to hold court.

Among the cases on the docket was that of G. A. Richardson, charged with the murder of a woman, which was to be disposed of during the day.

Whether Clarence Mahaffey will be tried at the present term of court will be determined this afternoon. The Commonwealth is fighting for trial of this case during the present term of court.

Whether Clarence Mahaffey will be tried at the present term of court will be determined this afternoon. The Commonwealth is fighting for trial of this case during the present term of court.

**BANDITS MAKE HAUL**  
(Associated Press Leased Wire)  
BUTTE, Mont., Jan. 28.—Two masked robbers entered the Missoula Postoffice early today, held up two mail clerks and carried away with them \$30,000 to \$35,000 in currency consigned to a Missoula Bank local post office officials announced. Post office inspector Tenneson Jefferson of Butte has gone to Missoula to investigate.

**Several Persons Hurt In Wreck**  
(Associated Press Leased Wire)  
PALESTINE, Texas, Jan. 28.—Several persons are reported injured in a head-on collision early today by a head-on passenger and freight train on the Great Northern railroad near Overton, Rusk county. A relief train with doctors and nurses left Palestine for the wreck.

**MOVE TO ANNUL OIL RESERVE LEASES BEGINS**  
(Associated Press Leased Wire)  
WASHINGTON, Jan. 28.—Coolidge was in communication by long distance early today with several advisers with a view of engaging special counsel to prosecute Oil Land Lease contracts and White House officials said they will be able to announce selections some time today.

Disregarding his early engagement, the president remained in his study in the White House past mid-afternoon considering as special counsel, Meaning Senator Lodge of Massachusetts, Republican leader of the senate, Senator Watson, of Indiana, and nearly a dozen other callers waited at the executive office for an opportunity to see him.

## Paris Flooded!

One of the first photos taken during the most recent flood that is making canals of Parisian streets. It is typical of the entire section of the city that is under water.

## Poole Case Will Not Be Tried at Present Term

(Special to The Bee)  
HALIFAX, Va., Jan. 28.—The case of Thomas C. Poole, cashier of the Bank of Virginia, will not be tried at the present term of court, but will be continued until the term beginning in March. It was stated this morning, on account of the fact that the accused is represented by State Senator Marshall B. Booker who, while here today, must be at the General Assembly tomorrow and thus will be unable to appear for his client. This is recognized by the State as a valid reason for a continuance.

The Poole case was given to the grand jury this morning by Commonwealth's Attorney James S. Easely, who also handed in a number of indictments.

As published exclusively in The Danville Bee, Saturday the amount of the shortage alleged to have been determined by auditors who have been going over the affairs of the bank is \$12,000. The bank's surplus and undivided profits is \$18,000.

Poole has been out on bond was here today, but no witnesses for the defense are present. Three or four witnesses for the State are here and are due to appear before the grand jury. It is generally understood here that the case will not be contested.

About a dozen jury bills of indictment this morning, these being mostly liquor cases. Judge William R. Barksdale is presiding.

**Richmond to See Dempsey Feb. 15th**  
(Special to The Bee)  
RICHMOND, Va., Jan. 28.—Jack Dempsey will visit Richmond on February 15th. Definite arrangements have been made for the pugilist by a group of local sportsmen who got in touch with Kearns as soon as it was learned that he was willing to take "Smiling" Butte to Danville. The Richmond promoters offered the guarantee which Kearns required at Danville but which has since been materially cut down. Kearns is expected to chinch the date in Richmond.

**PURNELL DIES**  
(Associated Press Leased Wire)  
BENTON HARBOR, Mich., Jan. 28.—Coy Purnell, 40-year-old son of Benjamin Purnell, future of the House of David, Colony, died at Shiloh house, his father's home, late Sunday following a lingering illness aggravated by pneumonia. His death was made known today.

**Look For Early Settlement of British Strike**  
(Associated Press Leased Wire)  
LONDON, Jan. 28.—The public is hoping for an early settlement of the railway strike as a result of yesterday's negotiation in which the emergency of the coal trade union, the railway managers and the Associated Society of Locomotive Engineers and Firemen all had part.

When the conference, lasting four days was over, J. E. Gregory, secretary of the strikers' union, went to a meeting of railway men and exclaimed: "I am a brinner of good news. I feel confident that the strike will soon cease to exist. I would not give you hopeful words unless I was sure of my ground." The dockers and road transport workers seem moving towards a strike owing to the refusal of an increase in their wages.

**DEFER SHIPMENTS OF APPLES FROM AMERICA**  
(Associated Press Leased Wire)  
WINCHESTER, Va., Jan. 28.—Representatives here of the British Apple Exporting firm were in receipt of cable messages today advising them to stop shipping fruit on the local market and shipping it to England until after the labor situation there had been cleared up. The strike of British railway employees thus far has had little effect on fruit shipments, it was stated, but the demands for increased wages by longshoremen and other dock workers has beclouded the situation so that it was decided to defer further shipments.

**Jessie C. Stevens Dies at Staunton**  
Word was received here today of the death of Jessie C. Stevens, secretary of the death at Staunton, Saturday afternoon, of 33 years. Mr. Stevens was a native of Pittsburgh and a resident of Danville for many years. He had been in declining health for some years but had only been in the hospital for about a month.

Deceased had been born in Lynchburg in 1859. His parents died when he was at an early age and he was then placed in the hands of relatives in the county where he has lived since. In 1875 he was married to Miss Kate Smith who preceded him to the grave four years ago. He is survived by three children, Ernest, Jessie, Jr., and Mrs. Cora S. Turner.

## John R. Morrison Expired Yesterday

John R. Morrison died yesterday morning at 6:30 o'clock his home 413 West Main street, after a critical illness from a stroke of paralysis received six weeks ago, since which time he has been gradually growing worse, culminating in a state of coma, a week ago, from which he never rallied.

Mr. Morrison was a confederate veteran, a member of Cabell-Graves camp of this city. He was born near Leatherwood, Henry county, Virginia, January 1844. He volunteered and was mustered into service in 1861, served through the war excepting time lost from wounds, the first of which he received at Drury's Bluff, the next with the 38th regiment of Virginia in Pickett's Division, in the charge at Gettysburg, at which time he lost a brother and was himself wounded.

Mr. Morrison was married to Miss Pattie Ellen Wilson of Leatherwood, Va. December 1867, who survives him with the following sons and daughters: W. L. Morrison, of Tucson, Arizona; D. H. Morrison, of Virginia Beach; W. H. Morrison, of this city; Miss Hope Morrison and Mrs. W. L. Grady, of Birmingham, Ala.; also a brother, L. C. Morrison, of Lynchburg, Va. one sister, Mrs. T. Robertson of this city.

A sad incident on top of Mr. Morrison's death is the serious illness of his wife, who is suffering from a stroke of paralysis, received about the same time as her husband.

The funeral was conducted from the home this afternoon at 2 o'clock. Burial was made in Green Hill Cemetery.

**CAPT. WOODING TO SEEK RE-ELECTION AS MAYOR**  
Captain Harry Wooding fully expects to be a candidate for re-election next June when both the city council and the mayor will be elected for a term of four years. Captain Wooding, who was approached on the subject this morning said that he would seek re-election and that he was feeling in line with the political year in a political way. In addition to the absorbing interest of a campaign for city council, when it is anticipated there will be a mayoralty election, there will be a mayoralty election with opposition to Captain Wooding for more than thirty years chief executive of the city, at present, at least, an unknown quantity in the field. He will be a quadrennial election of a President, a United States Senator, Congressman and a superintendent of public utilities, unless the amended charter should be adopted.

**GARNETT TO ASK FOR EXTENSION OF SEWERS**  
City Health Officer R. W. Garnett, is completing his annual report today which will be in the hands of the printer tomorrow and which besides offering authentic statistics on the births and deaths in this city for the past year and other general data on diseases will include a number of recommendations. These will be made to the council in the hope that some of them at least can be provided for in the next fiscal year budget which is now being given consideration. Dr. Garnett's recommendations in extension of sewers are by no means minor. There are several bad spots in Danville which are in need of immediate improvement along this line and which are a menace to the health of the city. Dr. Garnett is a health officer and he will urge the extension of the sewer system as a means of preventing disease and means to that end.

As to the sewerage, Dr. Garnett believes it would pay the city to provide a sewerage system. The present city dump, which is a nuisance, is a health hazard and the city generally is believed to be a health hazard. The present dump would have to be closed and the city would have to provide a sewerage system. The present dump would have to be closed and the city would have to provide a sewerage system.

The health officer has been told by the city engineer that an incinerator could be erected for \$20,000. The city market has been told by Dr. Garnett that it will call attention to the lack of proper facilities. This, however, is probably a matter which will have to wait until Danville is in a position to provide a new city hall and courthouse—a matter which has been under serious contemplation for some time as an unofficial matter.

Dr. Garnett said this morning that the sewer work is the most important thing in Danville. There are a number of bad spots in Danville where sewerage is a menace and which possibly may not be solved in some years. There are other spots which are a health hazard and which are a health hazard. The present dump would have to be closed and the city would have to provide a sewerage system.

## HOUSE WRECKED WHEN ESCAPING GAS IS IGNITED

### 3,000 Pounds of Tobacco Stolen From C. J. Wright

C. J. Wright, well-known tobacco raiser of Pellum, was in Danville today looking for between three and four thousand pounds of tobacco which, he claims, was stolen from one of his barns in his farm during Saturday or Sunday night. The tobacco had been stripped and Mr. Wright had decided to deliver the leaf to the local co-operative marketing receiving station this morning. One of his boys going to the basement where four curnings were ready for delivery, found all of it had been stolen. Mr. Wright was immediately notified and hastened to the scene. Marks of automobile tires were found near the basement and these were traced as far as the concrete road, it not being known which direction was then taken. Members of the family went to Stoneville, Winston-Salem and Reidsville in the hope of being able to locate the tobacco. The thieves, according to Mr. Wright, worked in leisurely fashion for a good deal of inferior leaf, such as red lugs and tips were found in some woods where they had been thrown.

The value of the tobacco stolen is about one thousand dollars.

**Charge He Tried to Stifle Inquiry**  
(Associated Press Leased Wire)  
WASHINGTON, Jan. 28.—A charge that R. E. Greager, representative national committee man for Texas, exercised "political influence with the postmaster general and the attorney general" to stifle an inquiry into land frauds in Texas was made today in a resolution introduced by Senator Heflin, Democrat, Alabama.

**Prohibit Banks Having Branches**  
(Associated Press Leased Wire)  
WASHINGTON, Jan. 28.—National banks are prohibited by the laws of Missouri from establishing branches. The Supreme Court held today, in a case brought by the First National Bank of St. Louis, that the laws of Missouri do not conflict with the laws of the United States. Justice Sutherland, in delivering the opinion, declared the Federal law does not contemplate the establishment of branch banks by national banks.

**Government Suit Against N. Y. Sugar Exchange Dismissed**  
(Associated Press Leased Wire)  
WASHINGTON, Jan. 28.—The government's suit against the New York Sugar and Coffee Exchange, which was charged with operating in violation of the Anti-Trust laws was dismissed today by the United States Supreme Court.

Chief Justice Taft, delivering the opinion, said there had been no conspiracy to connect the defendants, both corporate and individual, such conspiracy, as was charged by the government.

## Detecting Odor of Gas, Member of Family Lights Lamp and Terrific Blast Follows—Child was First to Discover Leakage.

(Associated Press Leased Wire)  
PAWBUCK, R. I., Jan. 28.—Eleven persons were killed by a gas explosion at Pawbuck early today. Mrs. Michael Conway was awakened by her young daughter, who complained of a odor of gas and then with way lit a lamp and the explosion, which destroyed the house, followed. Mrs. Conway, her two sons and daughter escaped but the husband, Michael Conway, was killed. A family of ten named Hammill resided and it is believed they are dead.

Conway's wife and daughter and two sons were severely injured and bruised and the house was destroyed. Emmette Conway, upon awakening this morning detected a strong odor of gas. He went to his mother's home and aroused her and then with his brother, Thomas, went to the cellar to try to locate the leak.

After he had opened the cellar door there was an explosion which caused a light in the hallway coming into contact with the escaping gas. The boys with their sister and mother, managed to make their way out of the shattered house, which quickly caught fire.

Neighbors who rushed to the place found six members of the Hammill family lying dead in their side of the house. The bodies of the Conway family were found in the cellar after the fire had been extinguished. It was believed that the bodies of the seven missing members of Hammill family were the result of a gas explosion. After viewing the bodies expressed the opinion in each case death was due to asphyxiation.

# ASSEMBLY FACE-TO-FACE WITH MASS OF LEGISLATION ON STARTING 4TH WEEK

**Budget Still Occupies Most Attention of Solons—Remainder of Session Expected to Be Quiet One—Byrd Attack Trinkle's Financial Policy.**

(Associated Press Leased Wire)  
RICHMOND, Va., Jan. 28.—Two measures, one to empower town and county authorities to enter into binding contracts for the maintenance of the poor and the other to provide for co-operation between the state purchasing agent and local officials, today were passed by the Virginia senate.

Two bills by Senator Hadden, Richmond, city simplifying the law relating to optometrists, were passed. Senator Early's bill requiring counties and cities to pay the expenses of inmates sent by them to the state asylum, was defeated by a large vote. The Vaughan measure giving the state highway commission authority to purchase gravel pits and to furnish highway material to counties was passed.

(Associated Press Leased Wire)  
RICHMOND, Va., Jan. 28.—With members having gathered out of the legislature for the first session of the Virginia General Assembly today entered its fourth week of the biennial session.

The session opened with prospects of a quiet time, according to observers. The attack of Senator Byrd, Twenty-sixth district, chairman of the State Democratic executive committee, against Governor Trinkle's financial policy, was one of the most interesting situations of recent years of the assembly.

A resolution of Senator Byrd, to remove the deficit of approximately \$1,800,000 was made in the budget. The joint finance appropriation committee appointed a sub-committee to decide on a policy to follow in regard to the shortage.

If this plan should be adopted, an increased revenue of \$2,000,000 during the next biennial would be received by the state, according to estimates. Senator Byrd's followers are said to be making no concessions in the budget appropriations wherever possible in order to insure removal of the deficit.

Among the measures to come up for action this week are the several bills for the commission on simplification and economy. Two of these provide for abolishment of the second auditor and register of land offices.

The following are the other committee bills slated for early consideration:

1.—To authorize and empower boards of supervisors of the several counties and the councils of the several cities to enter into binding contracts for maintenance of the poor. This is designed to lower the number of almshouses and overhead expense.

2.—To authorize the boards of supervisors of the several counties, cities and towns, and the officers of counties, cities and towns, who are empowered to purchase supplies for local public use to seek the aid and cooperation of the state purchasing agent in purchasing such supplies and to make it the duty of the state purchasing agent in purchasing such supplies and to make it the duty of the state purchasing agent to seek the aid and cooperation of the local purchasing agent and render the same when requested.

3.—To require the state accountant to prepare and cause to be published annually a statement showing in detail the comparison of the government expenditures among counties and cities of the state and the per capita cost thereof.

The resolution of Senator Barron, Norfolk city, memorializing congress to pass legislation separating state and federal governments in the enforcement of prohibition was on its second reading in the senate today. The committee on moral and social welfare said the resolution would not be passed.

The senate committee hearing on Senator Smith's bill to tax machinery as capital instead of improvement on real estate, as at present is set for tomorrow.

A bill by Senator Smith, Norfolk, authorizing the county of Norfolk to issue bonds not to exceed \$700,000, was on its third reading in the Virginia senate today.

"The funds are needed for the purpose of purchasing, building and improving roads and bridges in said county," and to authorize the commission of roads and bridges for said county to disburse the funds so obtained.

The Virginia senate today passed a measure by Senator Smith of Norfolk, to issue bond not to exceed \$700,000 for road and bridge improvements.

Senator Byrd, twenty-sixth district, was the author of two other measures.

that were passed. One of these provides that any three persons of a city or county may petition a circuit and corporation court judge for a purgation of the registration list, which request shall be granted. The second bill authorizes the state highway commission to order construction of overland and underpass crossings on state highways. The measure also gives the commission power to designate present crossings of this nature.

A bill by Senator Lesner, Norfolk City, to allow contested election cases to be heard before judges in vacation, was also passed as was a measure by Senator Barron, Norfolk City, to authorize cities and towns to appropriate money for advertising purposes.

A bill by delegate Gatewood, Amherst, to require cities and towns to pay taxes on any property owned by them from which a return is yielded was to be heard by the house finance committee late today.

Senator Barron, Norfolk City, was at the capitol to oppose the measure. City Manager Beck, of Lynchburg, was to direct the testimony against the bill.

## Plan Drive to Show Ill Effects of Volstead Law

(Associated Press Leased Wire)  
WASHINGTON, Jan. 28.—Anti-prohibition for the nation following their recent face-to-face conference today by the Virginia legislature today entered its fourth week of the biennial session.

The session opened with prospects of a quiet time, according to observers. The attack of Senator Byrd, Twenty-sixth district, chairman of the State Democratic executive committee, against Governor Trinkle's financial policy, was one of the most interesting situations of recent years of the assembly.

A resolution of Senator Byrd, to remove the deficit of approximately \$1,800,000 was made in the budget. The joint finance appropriation committee appointed a sub-committee to decide on a policy to follow in regard to the shortage.

If this plan should be adopted, an increased revenue of \$2,000,000 during the next biennial would be received by the state, according to estimates. Senator Byrd's followers are said to be making no concessions in the budget appropriations wherever possible in order to insure removal of the deficit.

Among the measures to come up for action this week are the several bills for the commission on simplification and economy. Two of these provide for abolishment of the second auditor and register of land offices.

The following are the other committee bills slated for early consideration:

1.—To authorize and empower boards of supervisors of the several counties and the councils of the several cities to enter into binding contracts for maintenance of the poor. This is designed to lower the number of almshouses and overhead expense.

2.—To authorize the boards of supervisors of the several counties, cities and towns, and the officers of counties, cities and towns, who are empowered to purchase supplies for local public use to seek the aid and cooperation of the state purchasing agent in purchasing such supplies and to make it the duty of the state purchasing agent in purchasing such supplies and to make it the duty of the state purchasing agent to seek the aid and cooperation of the local purchasing agent and render the same when requested.

3.—To require the state accountant to prepare and cause to be published annually a statement showing in detail the comparison of the government expenditures among counties and cities of the state and the per capita cost thereof.

## J. H. ELLIS BADLY BEATEN BY UNKNOWN AGGRESSORS

J. H. Ellis who recently was acquitted in the Corporation court of a serious charge by a jury which deliberated for about half an hour, was attacked and severely beaten last night at about half past ten on Grove street a few minutes after he had parked his car close to his boarding house on Grove street. Ellis claims to have been set upon by three or four men, the identity of whom he is said to suspect but whom he could not identify, according to Mayor Wooding to whom he applied for a warrant a short time after the assault.

Ellis after having put his car in the garage, was hailed by a man he believed to be a friend. As he was talking to him, he was suddenly and two men said to be flourishing revolvers, appeared while the third knocked him down repeatedly. When he emerged from the beating, Ellis face bled blood and he was badly bruised. He was taken to the hospital and his condition was reported as serious.

## THINK LINCOLN IS RESPONSIBLE FOR CRIMES

**Believe He Killed First Wife, Also Huge Man and Girl—Thought to Be Insane.**

(Associated Press Leased Wire)  
AURORA, Ills., Jan. 28.—The possibility that Wren G. Lincoln, eccentric lawyer-horticulturist, who killed his first wife more than a decade ago has entered his case since his seventh confession Saturday led to the finding of the heads of his second wife and her brother imbedded in a concrete block.

That he might have been the slayer of a huge man whose body, minus hands and with features obliterated by burning, was found near Lincoln's home, also is being investigated. A third new angle

# WOMEN SEEM IMMUNE FROM COLD WEATHER

Crew of Femines, Fashionably Dressed Should Make Trip to North Pole.

By AILEEN LAMONT.  
(Copyright, 1924, by The Bee.)

NEW YORK, Jan. 28.—Is it not a pity that the great arctic ship, the *Shenandoah*, starts for the North Pole, she cannot carry a crew of fashionably-dressed women? The latter certainly stand the cold well. During the recent cold snap, one could hear many exclamations about "How cold it is," but nobody complained, at least audibly, about cold feet or chapped ankles, although the thinnest of chignon stockings and cut out sandals continued to be worn.

To be sure, the so-called "dual," or under stocking, having the same protection and is invisible. But these have not been universally worn by any means.

With the contrariness of fashion, the sunburn shades are unfashionable in popularity in the middle of winter. These shades range from the golden yellow of a Burmese temple girl to the tint acquired by an Atlantic City life-guard in August and the complexion of battle scarred veterans of the Blue Grass prior to 1918. With these colors attractively displayed at every street crossing, the unlucky male victim of snow blindness this winter is indeed to be pitied.

Garters adorned with tiny ostrich feathers are the latest wrinkle of fashion to obviate the wrinkles of the hose. Frequently these plumes are interspersed with rocco flowers and similar fantasies are added.

Although women may affect to disregard the cold, now they are anything but indifferent to the furs for spring which will form an important adjunct to the costumes of March and April. Word comes from Paris that the fox pelts of different kinds will make their appearance on many of the tailormades. Scarfs of silver fox and mink will be worn with afternoon costumes and the short jackets are expected to be extremely popular. These latter will be executed in light weight furs, such as gazelle, reindeer and mink, the latter a product of the furriers drey and brush, whose animal ancestors are hidden in mystery.

Well-dressed women, tired of the hats they have been wearing, and finding it too early for the extreme spring modes, are turning to the between seasons' creations. These are delightfully soft little hats made entirely of ribbon. They may be of narrow ribbon, of lace ribbon and metal-rod, of face ribbon with a pique tedge, wide ribbon with one side dull and the other shiny, satin ribbon or corded silk ribbon.

Paris has contributed recently, too, very original head dresses created especially for those who have short hair when wearing formal evening dress. One is the "bonnet Juliette" which is a netting hemstitched in brilliant with tassels at the nape of the neck and the other is the "bandeau Theodore" in dull pearls with tassels falling over the ears.

## PROTEST SELECTION

WASHINGTON, Jan. 26.—A protest against the selection of the Minnesota Republican delegation to Cleveland at a convention instead of a primary was telegraphed to St. Paul today by Senator Hiram Johnson.

## Sore, Bleeding Gums Stopped In 12 Hours

Creosene, A Pleasant Penetrating Liquid, Carries Medication Direct to Roots of Teeth, Killing the Germs that Lead to Pyorrhea, Saving Pain and Dental Expenses. Your Druggist Will Refund Your Money If Relief Does Not Come in 12 Hours.

This new discovery is a pleasant penetrating liquid, medicated with gum tissue healing and germ-destroying ingredients used by the dental profession, compounded in connection with a penetrating agent which carries the medication direct to the roots of the teeth, relieving pain, tightening loose teeth, healing pus pockets, destroying decayed teeth and killing the germ that leads to pyorrhea.

The medicines used in Creosene are not new, but are well known and used by the entire dental profession. The new discovery is the method of application, which carries these germ-destroying medicines direct to the roots of the teeth and into every nook, corner and crevice in and between the teeth, thereby accomplishing at home in a pleasant way all the good benefits of a treatment in the dental chair, without the pain and expense. If your gums are sore and bleed easily, or your teeth are loose or loose, this is your warning money refunded. Creosene Company, Atlanta, Ga.—adv.

## LAW ROBS FIVE CHILDREN OF MOTHER

By ALEXANDER HEIRMAN  
QUEBEC, N. Y., Jan. 28.—Five little innocent victims of our immigration laws the youngest two years old, the oldest nine—torn from their mother's arms as she was being deported as "excess quota" can't find much joy in this land of their dreams. Instead they discover new terror—daily, and they tell each other about them in whispers.

"Ma—she must be dead," sobbed five-year-old Eugene Elise who would come to me when I'm sick. She always does.

He has the measles. And his nine-year-old brother Emil—head of the little troupe of unfortunate—can't muster up much courage to dissuade him. For he, too, has a suspicion that the worst has happened.

Troubles Make Youngster Old.

"Laws are made to help people," said this old little man, wise beyond his years. "Not to hurt them. Let look what it has done to us—it has robbed us of our mama, split up our whole family, and makes us cry all day."

"I'm not very old, and I hope to live many years. But I shall never forget the look on my mother's face as they took us away."

It was on the deck of the Muenchen, transatlantic liner, a few minutes before sailing time. Emil and his four brothers and sisters were to be deported with their mother, Mrs. Franz Dantes. They had been six months on their way to join their daddy, who came to America a year and a half ago. Since then he had worked hard saved enough to send for his family, and built a nice little home in Long Island.

The whole family was keyed up for a happy reunion. But it never came for the immigration authorities discovered that Mrs. Dantes had been born on a Dutch ship in a Belgian port. The immigration quotas for both Holland and Belgium had been filled.

Mrs. Dantes, therefore, could not be admitted, despite the fact that her husband had already taken out his first naturalization papers.

But her children were of German birth. And that quota still was open. They could be admitted if it was proved there was no likelihood of their becoming public charges. This wasn't proved to the satisfaction of the authorities until just before sailing time. And then—

Came the ruthless parting. Without clothes, baggage, or even a clean handkerchief, the mother was sent back to Germany. She even did not have the chance to say good-bye to her husband!

Some day she may come back, but it won't be for a long time. For the new quotas do not go into effect until July. In the meantime the mother, torn with the anguish of knowing that her loved ones are 3000 miles away, will have to shift for herself in a strange city.

A Woman Without a Country! She has a sister in Antwerp," says her husband. "But she can only stay there six weeks at a time for she is the wife of a German. As the wife of a citizen for I've declared my intention of becoming an American. She can't come into the United States because she was born in a country."

Strangling in its meshes is the happiness of the little children. Four of the mother's five children, Agnes, Pauline, and her aunt. She is very kindly, but her quarters are cramped. The baby stays with another relative in Brooklyn.

The new house, which the whole family was going to keep aglow, remains deadly cold.

MRS. FRANZ DANTES WHOSE DEPORTATION SEPARATED HER FROM HER TWO-YEAR-OLD BABY EUGENIA, AND HER OTHER FOUR CHILDREN FROM LEFT TO RIGHT BELOW EUGENE, 9, GONDA, 6, AGNES, 8, AND EMIL, 9.

whose quota has been exhausted.

"She's a woman without a country!"

The authorities told me I could get her in if I sailed with her and brought her back as the wife of a declared citizen of United States citizenship. But I'm not wealthy, and can't see the necessity of plunging into absurdity to untangle such red tape.

ican interests, should they be interfered with. However, it's hoped the warships' presence will serve as a sufficient warning.

## What's Going on in the World WEEK'S CHIEF EVENTS BRIEFLY TOLD

By CHARLES P. STEWART

That the Washington administration is somewhat on the side of the Mexican government against the Mexican rebels isn't disputed. But it's a pretty good government, fighting some pretty bad rebels. Yet the administration's considerably criticized in Congress for taking any side whatever. This isn't on the ground that the administration is on the wrong side now. It's on the ground that its example of side-taking may be imitated some time, some place, when and where the situation's merits are different.

After the Rebels

To get at rebel bands he hopes to destroy, President Obregon is sending troops through this country from northwestern to northeastern Mexico. There's no railroad on his side of the border. On this side there is. The Washington administration gave its permission, and so did the governors of Arizona, New Mexico and Texas.

Americans Threatened

United States warships have been sent to Tampico, where the rebels control. There are hints at the possible use of marines to protect Americans.

## INFLUX MAY MAKE FLA. POLITICAL BATTLEGROUND

By ROBERT T. SMALL  
(Copyright, 1924, by The Bee.)

MIAMI, Fla., Jan. 28.—Southern Florida with its network of amazing cities and home communities, is a living monument to the efficacy of publicity. The great game of "boosting" is common to nearly every American municipality. Even austere and domineering New York recently has fallen for the custom, and resorted to real old down home Main street methods to win the Democratic National Convention.

It is frankly admitted in the metropolitan New Yorkers wanted the convention in order to show a lot of the supposedly despised "hicks" from the country what a "real town" New York is and how hospitable its supposedly cold and bloodless people are.

Down here they have reduced the boosting art to a science, not only a science but a continuing business.

In all the wailing and gnashing of teeth which has been going up the country over the subject of taxation, not a murmur has been heard from the property holders of Miami who, in addition to all their other Federal, State and county assessments pay annual publicity tax. This year the publicity tax will yield more than \$100,000 and every cent of it will be spent in advertising Miami and entertaining winter visitors to this locality.

Other Florida communities are following the example of Miami in many of her publicity methods, and they too, may soon impose a publicity tax on the residents. It is felt here now that Miami is sufficiently well-known to attract tourists and winter home-seekers, so an effort is to be made to prolong the "season." The most fashionable folk, it seems, think it would be absolutely "dowdy" to come to Florida much before the middle of January and along toward the end of February they begin winging their way North again, generally by easy stages. Florida wants the "strangers" to come in December and remain until April at least. The Floridians would like to keep the "strangers" all year long and apparently are keeping more and more of them every year.

An insight into the way a growing city and winter resort carries on its publicity may be had from a report made by the Miami Chamber of Commerce today. The budget for expending the city publicity tax fund includes an item of \$35,000 for Pryor's Band, to play twice daily in the public park. The sum of \$30,000 is set aside

for advertising in newspapers and magazines.

In addition to the \$100,000 provided from taxes, the Chamber of Commerce is spending \$45,000 this winter on entertainment of visitors, an outdoor sports bureau, pageants, air meets, flower shows, etc.

Countless millions of dollars are being poured into Florida every year by Northern and Western visitors, and by Northern and Western capitalists. The latter money is being spent in industry, in property development and in more advertising. Advertising has shown its vast power here in thousands of ways. More and more Northern people are coming into the State to live and eventually this influx is going to have an effect upon the politics of Florida. Of course, the "crackers" still outnumber the new residents by a large ratio, but the wishes and the votes of the new comers are being considered more and more and it would not be surprising to see Florida in a few years a real political battleground.

## THREE PRISONERS ESCAPE

(By the Associated Press.)

NASHVILLE, Tenn., Jan. 26.—John Hall, Jim Nicholson and James Slaven, prisoners in the jail at Clarksville, today overpowered Turnkey James Scudder and made their escape.

cape, according to a report received here from Clarksville. Scudder was thrown in Hall's cell and the door locked. Hall was recently convicted of murder. Nicholson was held on charges of liquor law violations and Slaven was charged with larceny.

Never neglect a cough

PUT an end to it at once with Dr. Bell's Pine-Tar Honey. Loosens hard-packed phlegm, soothes inflamed tissues, restores normal breathing. Made of the same medicines your own doctor prescribes, combined with the good old standby—pine-tar honey. You'll like its taste, too. Keep Dr. Bell's on hand for all the family.

All druggists. Be sure to get the genuine.

## APINOL

THE PINE ANTISEPTIC

(Keeps out infection)

30c SIZE FOR 20c

THIS WEEK ONLY

Mothers of Danville

If you haven't done it before, change over this week to Apinol for treating your children's daily hurts. We, the druggists of this city, are authorized by the Apinol Corporation, this week only, to give you your first 10c worth of Apinol free—that is, we can sell you the 30c size for 20c. They will pay us 10c—stand the difference. We advise the home use of Apinol. It is just as strong in keeping out infection as the poisonous, burning, corrosive antiseptics, but does not sting, burn nor scar, and yet is as pleasant to use as many milder antiseptic preparations that you have found ineffective. The 10c offer will not be extended, nor repeated.

A PRODUCT OF PINE—This cut price week is expected with the cooperation of all North Carolina druggists, to acquaint at least 50,000 more North Carolinians with APINOL, the PINE ANTISEPTIC, made in North Carolina, a product of the Long Leaf Pine—the perfect wound-dressing for home use.

HARMLESS IN FULL STRENGTH—For cuts, scratches and dirt wounds use APINOL full strength. There is no diluting to different strengths as with so many poisonous or corrosive preparations. Age does not concentrate it like iodine. Pour it on freely.

DOESN'T HURT—SOOTHES—APINOL is a local anesthetic like menthol—doesn't sting, burn nor pain but causes relief. Rubbing thin oil is as important to air and water, thus sealing up the wound and keeping out infection. An old hardened APINOL bandage can be softened by soaking it with APINOL, and lifted off without tearing or pain.

NOT ONE DROP OF IT—The APINOL bandage does not have to be changed often. A railroad surgeon says that before adopting APINOL, he used to change a bandage every two days. Now he leaves the APINOL bandage on ten days and has never found any one underneath an industrial plant surgeon reports not a single drop of pus in 3,000 different dressings.

NO DREAD OF POISONING—Hence it is a valuable first aid in the case of larvae injuries. Clearing them carefully before application you need have no further fear of lockjaw, blood poisoning.

EXIT POISON BOTTLE—You will feel relieved when you have thrown out the poison bottle. There will be no danger of giving a fatal dose at night. A New York City ambulance surgeon, writing in the American Magazine, declares the large number of deaths that occur annually in New York from iodine poisoning.

CHILDREN FEAR IODINE—Children are apt to hide or belittle their hurts rather than to submit to iodine treatment. Because it burns. They like the pine odor and the pleasant effect of APINOL. They actually run in from play calling for APINOL for every little injury.

BURNS, SCALDS, SUNBURN—APINOL covers the surface with a protecting film, keeps off air, water and infecting germs and so helps and hastens the healing process at the same time soothing the pain.

KEEPS INSECTS AWAY—Insects can't endure the fumes of APINOL. It will keep off mosquitoes, red bugs, ants, flies and other vermin, and besides has the property of relieving the itching or stinging of insect bites and preventing infection therefrom.

A LAST WORD—The advantages of APINOL, over the older antiseptics make it the perfect first aid in the home, factory, machine-shop, garage, outdoor camp, or on the farm where it serves for antiseptic as well as humane. Come in and hear more about it. The 10c offer is good only this week.

Apinol Takes the Place Of Iodine

## MAH-JONG GLASSES

Many Mah Jong players, particularly those who have passed 45, suffer eye discomfort while playing this fascinating game. They find the exposed tiles on the table too far off to see comfortably with their reading glasses, yet too close to see properly with their distance glasses or without any.

For these we make special INTERMEDIATE glasses, ground of neutral tinted glass to absorb the glare of the polished white tiles, that enables them to play the game for an indefinite time without eye discomfort.

## EXTRA! TROUSERS! EXTRA!

### FAMOUS EDITOR SOLVES HARD PROBLEM

Lately our trousers have been bagging so at the knees we found taking them off at night becoming very difficult.

Three weeks ago we could remove them by unbuttoning the fly, and tugging accordingly.

Two weeks ago we were forced to start using a bootjack.

One week ago the bootjack broke. Then, by nothing less than a bootjack, we remembered a "home help."

We wrote last summer. We put the trousers on backward.

After wearing the trousers backward three days the bag at the knees was gone. Now we plan to alternate one day the trousers will be on right and the next day on backward.

If your trousers suffer from knee-bagging try this plan.

### HOME HELPS

Letters from an old flame are fine for starting a fire.

### EDITORIAL

A scientist is planning to send a rocket to the moon. This is aiming pretty high. Even if he fails, as seems likely, he will enjoy the fun of trying. The moon is a good target to look at the ground unless you want to go in that direction.

### BEDTIME STORY

"Daughter, tell that saphead to go home."

### MANITOBA IS TOO TROPIC FOR HIM

(By Chicago Tribune Service)  
WINNIPEG, MAN., Jan. 26.—Sentenced to serve ten years for slaying a fellow Eskimo, Nad Koodia, a 30-year-old man, has been deported from Manitoba to the United States. He had been deported from the United States to the United States for slaying a fellow Eskimo, Nad Koodia, a 30-year-old man, has been deported from Manitoba to the United States.

Since the long grasp of the white man's law reached out and encircled him, Nad Koodia has starved for the food which his palate craves, and in the torrid climate of Winnipeg he has grown soft and sickly. Last summer he was brought down from Pond's Point, on the northeast coast of Baffin Land after being sentenced to ten years imprisonment for slaying a fellow Eskimo, Nad Koodia, a 30-year-old man, has been deported from Manitoba to the United States.

### CHLORINE GAS FOR COLDS A SUCCESS

WASHINGTON, Jan. 26.—Callers admitted to Secretary Weeks' office today, caught a decided taint of chlorine gas in the air. The secretary explained that he was submitting to a test of the gas service device recently perfected to cure colds through mild concentrations of chlorine gas. The apparatus has been tried on some 900 cases of various kinds of colds in the army and the records show complete cures in 75 per cent of these cases.

### Sour Stomach Is Caused By Acids

Says We Must Keep Feet Dry, Avoid Exposure, Eat No Sweets

Stay off the dampground, avoid exposure, keep the feet dry, eat no sweets of any kind for a while, drink lots of water and above all take a spoonful of Jad Salts occasionally to help keep down uric and toxic acids. Rheumatism is caused by poison (uric) acids, which are generated in the bowels and absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine. The pores of the skin are also a means of freeing the blood of its impurity. In damp and chilly, cold weather the skin pores are closed, thus forcing the kidneys to do double work; they accumulate and circulate through the system, eventually settling in the joints and muscles, causing stiffness, soreness and pain, called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is helpful to neutralize acidity, remove body waste also to stimulate the kidneys, thus forcing the blood of these rheumatic poisons.

Jad Salts is inexpensive, and is made from the acid of grapes and lemon juice, combined with lithia, and is used with excellent results by thousands of folks who are subject to rheumatism.—adv.

You'll Get PLEASSED with the results you get with Chiropactic

That's why our patients are our best boosters. They are in a position to know better than most about who has neither tried nor studied it, because they have investigated and experienced its merits.

Chiropactic is a science in itself, vastly different from all other methods. That it gets results is proven by the fact that it is the most rapidly growing health method in the world today.

Although not a "cure-all," over 90 per cent of all diseases have been successfully handled by Chiropactors, among which are many so-called incurable diseases.

### ADVERTISING

The pipe named Gumshoe is still missing. After robbing a tobacco store late last night it escaped by slipping up throat and outcoughing all the firemen when they answered a general riot call. Liberal reward for the pipe, dead or alive.

### SPORTS

There are good sports and bad sports. A good sport is a man who whistles "My Country, 'Tis of Thee" while paying his taxes. A bad sport is a man who spends so much time cursing Congress he has no time to vote.

### BRO. TOM'S KITCHEN

When too lazy to wash the dishes say you must let them soak.

### BEAUTY SECRETS

Is some other girl taking your shine? Smear a little glue on your lipstick.

### ETIQUETTE

Never say, "I am glad to meet you" to a bill collector. This is needless lying.

### HEALTH HINT

Throwing the clock at the cat may be fun, but it is considered unhealthy by the cat.

### HORRIBLE SCANDAL

(By Chicago Tribune Service)

VIENNA, Jan. 26.—(Radio)—Exclusive Austrian society is staggered by the disclosure of a most horrible scandal in history through wholesale arrests of the wealthiest and oldest of families following the discovery of a flagellation school, where a baroness whipped and tortured children to satiation, who were charged enormous prices.

Following complaints of neighbors in Biberstrasse detectives raided the home of Baroness Rosa Nagy Egedy, widow of a Hungarian captain and former wife of a Paris banker named Rosza.

In a plush carpeted, velvet hung room on the second floor the police found a table, like an operating table, with straps and strange apparatus affixed and fresh blood stains on it. In a cupboard were discovered whips of all kinds, from tiny silken switches like fly whisks to Russian knouts with leaden pellets attached to the ends of the thongs. The detectives found photographs betraying the terrible usage of the articles—pictures of bleeding, writhing children, scenes flogged by a woman wearing a nun's dress, while a group of bestial, gloating men and women, their eyes protruding from their sockets, watched them.

Ransacking the house, the police found two children hidden in the garret, a boy aged 11 and a girl aged 13, their bodies covered with scars and bruises. The boy was unable to speak, but the girl, named Greta Patrety, said her mother, starving, had sold her to the baroness six months ago, when the woman had said she loved children and intended to raise them.

The baroness when put under a third degree admitted that she used the children for flagellation scenes. She confessed that she had used her own daughter, who died last autumn at the age of 14.

The baroness said that visitors paid 500,000 crowns to watch a fifteen minute scene and the receipts averaged 5,000,000 crowns daily.

Baron Leopold Chumetzky, members of the jockey club, the son of a banker, M. Tausig, a carpet manufacturer, Paul Lotany, and a celebrated oculist, Prof. Bachsted, were among those arrested.

The detectives learned that the baroness pretended to conduct a boarding school and told the children that the beatings were for bad conduct and for not preparing their lessons. She claims French citizenship through her marriage with M. Rosza, which the Austrian authorities deny.

### PRESIDENT BUDD REVIEWS YEAR OF 1923 WITH ROADS

NEW YORK, Jan. 26.—Substantial financial and service progress made by electric and railways of the United States during 1923, according to a statement issued here today by Britton I. Budd, President of the American Electric Railway Association.

Annual passenger records for all time apparently were broken with a total of about 16,000,000 riders, and the increase in freight and express business on interurban lines was marked. Mr. Budd declared. Operating costs, particularly wages, advanced. Receivables decreased greatly. City fares receded slightly. The average fare for the country today being 7.14.

Increased use of advertising was credited with the responsibility for part of bettered conditions. Other contributing factors, Mr. Budd said, were better service and elimination of bus competition. Traffic congestion, caused by constantly increasing numbers of motor vehicles, was termed the gravest service problem. Mr. Budd also insisted that streets were being widened generally for the benefit of the one-fifth of the public which rides in motor cars, while nothing was being done for the four-fifths who use street cars.

"Official reports on passengers carried from one-third of the industry indicate all records were broken in 1923," the statement said. "During the first 11 months these lines carried an average of five per cent more passengers than in 1922, heretofore the record year. Final reports for 1923 will show almost 16,000,000 passengers carried, if the preliminary report is maintained, and it invariably has been in previous years."

### JAY GOULD DEFEATED

(By the Associated Press)  
MONTREAL, Jan. 26.—Clarence C. Fell and Stanley G. Mortimer, of New York, holders of the United States doubles title tonight won the Canadian Amateur Racquets double championship by defeating Jay Gould, of Philadelphia, and L. Du Pont, Jr., of New York, 15-9 and 15-10.

### UNFAVORABLE WEATHER CAUSES POOR QUALITY OF GERMAN WINE

COBLENZ, Jan. 26.—Wine makers along the Rhine and Moselle rivers have been hard hit this year because of unfavorable weather during the

spring and summer. The grapes were small and scarce and in addition were sour and acrid. The result is that the wine output is only about one-tenth of the normal. The poor crop is attributed to a cold, wet spring and the absence of sunshine during the summer. Growers in the vicinity of Lake Constance report a splendid crop of grapes and a good output of finely flavored wine, which, however, is quite different in taste from the usual Rhine and Moselle wines.

PAGO PAGO, American Samoa, Jan. 21.—Three prominent Samoan chiefs have been found guilty of conspiring to defraud the island revenue, and fined \$200 each. Their scribers were fined \$135 each. The men were tried by a special high court, presided over by the American judge, Sydney D. Hall, and including five associate judges chosen from the people. Governor Edward S. Kellogg, U. S. N., dismissed the chiefs from their official positions.

## BLAME UNFIT DRIVER FOR TRAFFIC TOLL

CHICAGO, Jan. 28. Drive the "Motor Moron" from the streets! This is the remedy Fred M. Rossland, chief of the National Safety Council's public making the highways safe. It supplements the National Safety Council's estimate, just announced, that 15,000 persons were killed in auto accidents in 1923—1000 more than were killed in 1922.

"Enforcement of traffic laws already on the books is more important than writing new ones," says Rossland. Here are some ideas, though, which might help in a new code:

"Most important of all, eliminate unfit drivers. Delaware requires a test of all prospective drivers, to determine mechanical skill, and coordination of hand, eye and nerve. Drivers without certificates of fitness are arrested.

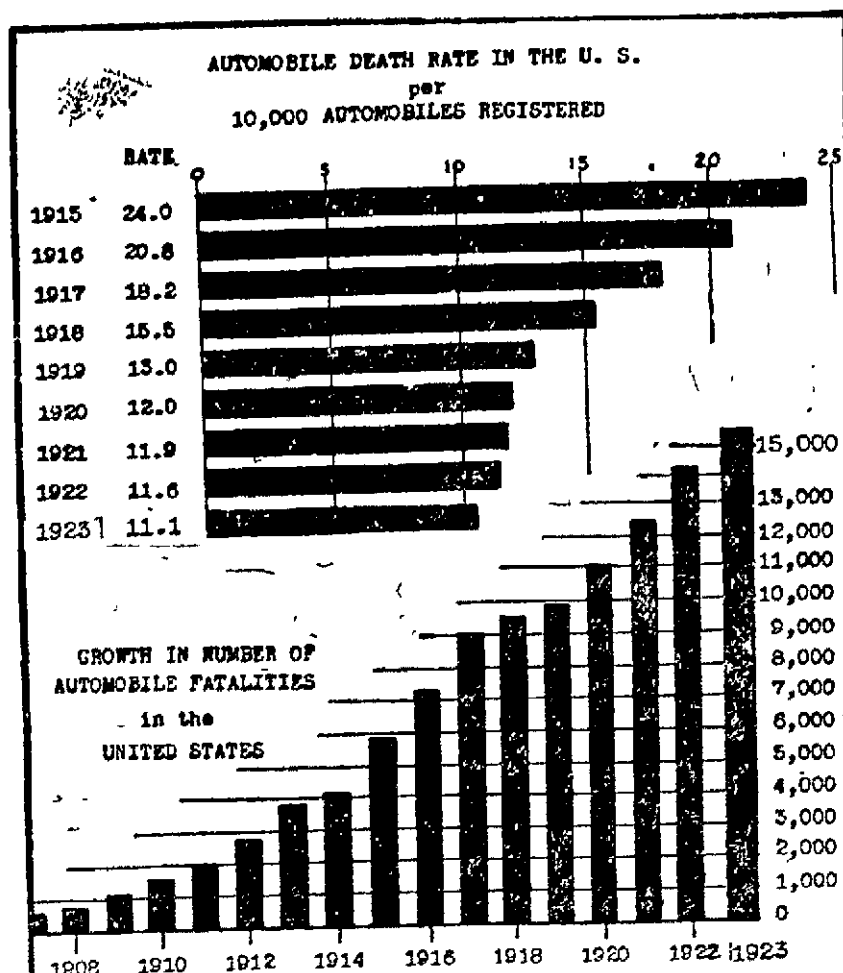

"Make 10 miles an hour maximum speed for cars turning street corners. Make 15 miles the limit in downtown sections and 20 miles the absolute maximum in a city.

"On busy corners where traffic police are required, compel pedestrians to observe the same signals as motorists and cross only with motor traffic.

"Create wider highways and more of them, correcting blind corners, before it is necessary to prohibit motor vehicles from certain streets in many cities."

The "fool woman driver" and children are far more careful than are men, according to the Safety Council accident survey. During 19 months' study of Los Angeles, women drivers figured in only 4 per cent. of the accidents, while the number of children killed decreased.

"Safety instruction in the schools of 300 cities has cut down playing in the streets—and the 1924 jaywalkers are mainly grown persons," declares William H. Cameron, managing director of the National Safety Council. "If the parents took the same care children now do, there would be a far greater curbing of the accident rate."

LOWER CHART SHOWS THE INCREASE IN AUTOMOBILE TRAFFIC FATALITIES OVER A PERIOD OF 10 YEARS. WHILE THE NUMBER OF DEATHS HAS INCREASED 1500 PER CENT SINCE 1908, THE DEATH RATE IN RATIO TO NUMBER OF AUTOMOBILES HAS DECREASED, AS SHOWN IN THE UPPER CHART.

## Oppose Changing Yearly Playing of Cup Matches

(Associated Press Leased Wire)  
NEW YORK, Jan. 28.—Henry W. Stocum, president of the United States Lawn Tennis Association, selected Wednesday night to represent the Davis cup committee at the annual meeting of the International Lawn Tennis Federation in Paris on March 21, has been empowered to convey the committee's opposition to the proposal that the yearly playing of the international cup matches be changed.

The cup committee is on record as opposing the proposed change. Whether a meeting will be called to effect the suggested changes depends upon the vote at the meeting in Paris.

## DAILY PUZZLE

There is a certain number between 1 and 50. Take that number, add 3, divide by 2, add 8, multiply by 2, subtract 2, and you will have two times the original number as the result! What is the number?

Saturday's answer:

ysrw

mvsh

"ysrw," above, certainly spells nothing; but if you turn the paper upside down, you will find that the word is "mush" written upside down, as shown below!

**ALEUTIAN ISLAND BECOMES IMPORTANT SHEEP RANGE**  
SEATTLE, Wash., Jan. 26.—A herd of 2,000 sheep landed in the fall on Unalak Island, one of the larger of the Aleutian Islands at the northern end of the Pacific Ocean, will be increased by additional shipments to 30,000 next year, according to Aman Moore of this city. Mr. Moore is one of the promoters of a project to make the island a sheep range rivaling the Falkland Islands off the coast of South America.

"There is a wonderful stand of grass on Unalak knee-high, and not a tree or bush on the island," said Mr. Moore.

The government has given a lease on 350,000 acres on the island for the enterprise and has promised 150,000 acres more when needed. A. L. Mackintosh, a pioneer sheepherder of Oregon, is credited with discovering that the island was a potential sheep range.

## RUBBER LAMING TESTED FOR ROADS AND AUTO WHEELS

By ISRAEL KLEIN  
NEA Service Writer.

AKRON O., Jan. 28.—The coming generation may see cobblestones, wood, wire or disc wheels, and fabric tires in museums only.

On his way to view these "relics," the motorist of the future may be riding over rubberized roads, on balloon tires and rubber-spoked wheels.

For this is what the rubber gentry of this city, rubber center of the United States, are planning today.

Balloon tires are known, new as they are at present. They are being introduced this year on several automobiles, and expect to be generally accepted soon, with perfection of their design and manufacture.

But rubber spoked wheels and rubber wheels? It sounds ridiculous.

However, these already are actual facts.

**Pavement Tests.**

The city of Akron, for example, has been asked to "appropriate" a street for pavement by one of the large rubber manufacturers with some rubberized concoction to be tested for road wear and tear. This is all that is made known of ideas for future highways. It is based on an attempt to find some substance that will help make riding easier and more economical for the motorist.

Rubber pavement, it is argued, might even solve the skidding problem. For, contrary to expected supposition, rubber takes a firm hold against rubber. During wet weather, only the first film of rain would be dangerous, because of the underlying grease that is brought to the surface. But as soon as that grease is washed off, no amount of rain could make a rubber pavement skiddy.

**Two Wheels Out.**

Further than this, nothing is as yet revealed about rubber pavement. But work is going on along that line.

Rubber wheels are an actuality. Two manufacturers already have announced production of such wheels for motor cars.

Frank A. Selberling, well-known tire man of this city, comes forth with a combination rubber and wood wheel—the forerunner of what may be expected in later years.

Selberling's product consists of a structural backbone of thin, porous wood, and rubber plies amalgamated and interlaid into one unit. The concavity of the wheel, in addition to the flexing property of the rubber-wood material, is said to assure a marked resiliency for the wheel. Besides, there is allowance of one and one-half inches for distortion under load or shock without structural injury.

**Advantages.**

The need of shock absorbing devices is practically eliminated, say the designers, and the wheel affords a additional cushioning sought in balloon tires.

A similar idea is used in a wheel

There is nothing like Listerated Gum for calming your nerves and smoothing out "worry-wrinkles". Try it!

## Twenty-Fourth Annual Statement

December 31, 1923

# Atlantic Life Insurance Company

## RICHMOND, VIRGINIA

E. STRUDWICK, President

### The Company Is Required to Hold Assets for

LEGAL RESERVE ..... \$ 9,878,408 86

That amount which, with future net premiums on the policies, when invested at the rate of interest stated below, assures the payment of all outstanding policy obligations as they become due in future years by death, surrender or maturity. Calculated by the Company on basis required by law, verified and approved by the Commissioner of Insurance of Virginia. Average rate required to be earned, 3.51%; rate actually earned in 1923, 5.81%.

Death and disability claims awaiting proof ..... 118,238 15

Policyholders' dividends on deposit and interest thereon ..... 210,889 35

Premiums and interest paid in advance and accrued bills, taxes and other accrued items ..... 131,346 64

For payment of annual and deferred dividends ..... 180,024 15

For payments in future years to deferred dividend policyholders.... 312,262 12

Reserve, for investment fluctuation and building depreciation..... 146,002 20

TOTAL LIABILITIES ..... \$10,977,171 47

Funds held for protection of policyholders in addition to the above:

Capital stock ..... \$500,000 00

Surplus ..... 555,202 98

1,055,202 98

TOTAL ..... \$12,032,374 40

### Assets Held to Meet the Requirements Stated Opposite

Loans secured by first mortgages on real estate ..... \$ 7,972,825 00

The security for these mortgage loans is valued at \$21,130,282.67.

Loans secured by pledge of bonds, stock or other collateral..... 51,644 45

Loans on policies for amounts not exceeding in each case the reserve on the policy included as a liability in legal reserve..... 2,405,024 27

Notes of policyholders for extension of premiums in each case not exceeding the reserve on the policy included as a liability in legal reserve ..... 193,735 30

Bonds at their amortized value, that is, the value based upon cost to the Company and the interest-earning power at the time of purchase ..... 60,862 48

Real estate at cost..... 688,228 31

Cash in office and banks, of which \$171,999.31 is at interest..... 194,585 41

Interest and rents due, and earned but not due, on investments named above ..... 196,115 93

Due from other companies for death losses on claims reinsured..... 29,898 00

Premiums or installments thereof (due, and earned but not due) not exceeding in each case the reserve on the policy included as a liability in legal reserve..... 239,355 25

TOTAL ASSETS ..... \$12,032,374 40

### CERTIFIED PUBLIC ACCOUNTANTS' CERTIFICATE

We have audited the books and records of the ATLANTIC LIFE INSURANCE COMPANY, of Richmond, Virginia, for the year ending December 31, 1923, and find that all items of income and disbursements have been properly accounted for, and have verified the Bonds, Mortgages and other Securities owned by the Company.

The foregoing statement, in our opinion, represents the true condition of the Company at the close of business December 31, 1923. The amount of reserve was certified by the Commissioner of Insurance of Virginia.

(Signed) A. M. PULLEN & CO.,  
Certified Public Accountants.

## KEELING BROTHERS, District Agts.

Main And Union Sts., Danville, Va.

# THE NUT CRACKER

BY JOE WILLIAMS

**SPEAKING OF SPAGHETTI**  
 Newest thing in championships is one-way spaghetti-eating tournament. This will be of interest to people on hunger strikes who wish to stay that way.

Any time a guy tells you he is all wrapped up in his wife's cooking put him down as one of those birds who eat spaghetti or a loose and fluent scale.

Old-time spaghetti fans still insist that One Gulp (Barbald), was king of all. Once Gulp flourished back in late-knuckle days, when forks were seen but not heard and no holes were barred. One Gulp was never content with winning a decision on points, but kept right after the foe until he had scored complete knockout. One Gulp trained on petrified rubber bands and extra dry cotton and was always in the pink. The other 41 ring lost a real champion when One Gulp retired undefeated, if not unbloated, at the juicy old age of 72.

To be a spaghetti devouring champion you need not have any appetite to speak of, and if it is spaghetti appetite you shouldn't speak of it.

Spaghetti is nothing more than a roll of Italian dough that has been taken down to the corner grocery and made over into small change.

Tony, the chef, tells us it takes real technique to eat spaghetti. It takes did not have to be told that it takes real nerve.

Spaghetti nibbling is brutal sport. Kansas City man who ate 38,000 miles of the stuff in winning title had to have all his tonsils repaved.

One nice thing about spaghetti championships is that they never complain about losing close decisions at the plate.

Tex Rickard says he will stage an international spaghetti gobbling yowl in Madison Square Garden and he hopes he isn't stringing us.

Colonel Bryan protests that man didn't descend from monkeys and perhaps he's right, but never hear of a monkey trying to win spaghetti world series.

## Skating Features Olympic Program In France Today

(Associated Press, Leased Wire)

**CHAMONIX, France, Jan. 28.**—The Olympic games ice program today brought together the United States versus Belgium, Canada versus Czechoslovakia. The lineup of team was: A. Lacroix, of Boston, Irving W. Small, of Boston, and Noel J. Abel, of St. Paul, de la, Harry Drury, of Pittsburgh, and Wilard W. Rice, of Boston, and Justin J. McCarthy, of Boston, let water, took first place in the American match was Munro of Canada.

Also scheduled for today was the figure skating for women. The American representatives were Mrs. Teresa Reid Blanchard, of Boston, the American Women's champion, and Mrs. Bearrix Loughlin, of New York. The American speed skaters won 11 points for the country on Saturday, were able to do nothing against the stamina and skill of the Finn in the distance events yesterday. Thundervogel, won the 1,500, and 5,000 meter events. The 10,000 meter race went to Skutnabb, also a Finn, bringing his national total points foot 48-1-2. Norwegians by virtue of many of the lower places were able to bring their total score to 38-1-2. H. H. Kasky, of Chicago, took seventh place in the 1500 meter event, followed by Charles Jewett and Joe Moore, New York, who were tied for eighth. William Stenmetz of Chicago was twelfth. Kasky's time was 2 minutes 39.9 seconds, compared with Thundervogel's 3:13.2 and 4:45 seconds, a mark that came within four seconds of the world's record.

The first American in the 10,000 meter race was Valentine Bialik, Saranac Lake, who in 15 minutes 30.4 seconds saved him eighth place. Richard Donovay, Saranac Lake, was ninth. Joe Moore, New York, was thirteenth. Saulnabe's time was 15 minutes 45.5 seconds while Thundervogel, who seemed to let his companion take the victory, made the distance in 15 minutes 7.4 seconds, taking second place.

## SCHOOLFIELD IS BADLY BEATEN

**GREENSBORO, N. C., Jan. 28.**—The Schoolfield varsity basketball team was defeated here tonight by the Providence team by the score of 43 to 24. The visitors were outclassed and showed poor form.

## LOCAL HIGH SCHOOL IS BEATEN BY LYNCHBURG

The local high school basketball team was defeated here tonight by the Lynchburg team by the score of 43 to 24. The visitors were outclassed and showed poor form.

## BARNEY GOOGLE and SPARK PLUG

Barney Hadn't the Heart to Do It

## FOR THE GAME'S SAKE

BY LAWRENCE PERRY

(Copyright, 1924, by The Bee)

Next week, Jan. 28—just how England would feel were Willie Hunter to win the British Amateur championship this summer is difficult to say. It may be suspected though that the victory would be acclaimed by all patriotic Britons, even granting that Hunter has been in this country since 1921. That year, as a British subject and a resident of England, he won the British amateur, coming to this country shortly afterward.

Metropolitan golfers can quite a bit of him for a time and then he went to California where he was since been. Hunter has played some very fine golf in American tournaments and some American topnotches have always fallen before him in the course of his unsuccessful efforts to win the American crown.

Certainly was Hunter to repeat his 1921 victory in the British amateur this summer, Americans would have to come pretty much out of their way to get a kick out of it.

Just the same, are not the English going a bit out of their way in picking two members of the famous Argentine polo four for the team which will invade this country next summer in quest of the international polo trophy? The grounds are that one of the Argentinians is really a Canadian, residing and doing business in Buenos Aires and that the other is a son of British parents.

At all events the American polo association is not inclined to raise its eyebrows over the matters, the sporting attitude being the stronger the nurlingham team, the keener the competition.

If William Johnstone indulges to any extent in tennis in California, his game will be watched with widespread interest by American tennis fans. Since the national singles were played at Germantown the impression has prevailed that Tilden, so far outclasses any other player in the country—or in the world, that when he really wishes to extend he has not real competitor. This is a fine thing for Tilden but it doesn't help public interest in the game.

Dr. Hibbes, president of Princeton University, in his statement concerning inter-college football this game is indeed more popular at Princeton than other place of which the water knows. It is a wonderful exercise and is played precisely along the lines of the regular football game, except that no tackling is permitted. When the ball carrier is tagged the play stops, the offense, of course, strongly emphasized, and strategic maneuvers designed to get the runner clear. As a means of inculcating knowledge of football and principles thereof, the touch game cannot be beaten.

## DOG RACING IS POPULAR PASTIME IN FLORIDA

By ROBERT T. SMALL

(Copyright, 1924 by The Bee)  
**MIAMI, Fla., Jan. 28.**—Jaded society has a new fad—dog racing. The quarter mile track of the Miami Kennel Club at Hialeah Park is the scene of one of the most novel forms of sport this country has ever known. The thing is a typical running race meeting in miniature, sleek blue blood greyhounds taking the place of horses. The local newspaper prints daily "charts" of the races, with all the races indexed so as to furnish a "dope" sheet for the past performance of the dogs.

Naturally there are no jockeys and therefore no "pulling" or crowding or pocketing and consequently no claims of foul. It might be a foul if one dog would start baying another, but they can't do that for they are all carefully muzzled.

Betting is permitted on the races and the bookmaking is done within the paddock enclosure. Women are not permitted in the paddock but the fair ones congregate just outside the entrance and send their commissions into the betting ring. They are among the greatest plungers on the races and apparently are very keen about the sport.

Some of the books being made on the races would make the old time books of Sheephead Bay and Morris Park water at the mouth. The per centage in favor of the bookies must be something tremendous. For instance in one race yesterday afternoon, in a field of eight starters, there was a three to two favorite, a two to one second choice, two third choices at 3 to 1, fourth choice at 4 to 1, fifth choice at 6 to 1, with no better than 8 to 1 offered against the outsiders. The bookies couldn't lose, no matter which way the cat, or rather the dogs jumped.

The betting system is unique. You don't bet at all. You buy an interest in the race. The little card you get with small chance of ever cashing it in certifies that the "holder" or bearer of this ticket is entitled to an approximate interest of the courses, prizes or premiums, if any, earned by the certain dog named Hambone in a run in race number 3, the colors of which dog are blue, and dog to be run on this date.

The writer pointed out "Hambone." He was the favorite at 8 to 5. But "Hambone" wasn't out for the soup. Let the description of the race, written by the chart keeper tell the story. Here it is:

Rush Reuben drew clear of the field to a good lead just outside the entrance. He was followed closely by Hambone, who was a close second. The race was a close one, with Hambone leading the field. The race was a close one, with Hambone leading the field.

hound the writer had every seen, hence the hunch, but once more let the chart tell the bad news.

Cruta Poda (who ever head of a dog named like that?) showed impressive, came on the rail entering the stretch with a burst of speed, challenging the leader to win going away. The mystery set in place but was out in the final drive. Took place without contention. Sitting Bull closing strongly was easily third. Blue Jay forced the early race but went wide in the stretch. Buff left at the post.

The dogs are treated just like race horses and are handled with the same seriousness. They have their warm-up gallops, their trainers and their grooms. When the bugle sounds at post time, they are led up on the track in leash and paraded before the grandstand and judges. Then they are taken to the starting boxes. Each dog has a box but there is a common gate in front. Leashes are removed and the shrinking hounds are shoved into the narrow boxes or stalls. The foolish "Buff" that got left at the post, was the last to go. He was headed the wrong way when the barrier was sprung and the shout went up "They're off."

Naturally the question arises, what were they off after? That is the dog's part of the whole game. The dog's chase a stuffed rabbit. He is mounted on a wheel which runs on a single steel track all around the race course. There is an arm from the rabbit that the outer track fence where an electric motor propels the contraption. The rabbit is a good start. He goes forward in leaps and bounds and his pace is controlled by a man sitting in a tower. Just beyond the finishing post there is a switch and when the race is done the rabbit disappears into a hole, much to the chagrin of the poor foolish hounds. One day recently one of the dogs caught the blooming rabbit just beyond the finish and nipped off one of his funny suited legs.

**MURPHY'S SQUAD OF HARNESS NAGS BEST IN WORLD?**  
**STRAUSE, N. Y., Jan. 28.**—What is probably the most representative stable of high-class harness horses in the country is being maintained here by Tommy Murphy, Grand Circuit star.

Murphy has a string of 28 horses, a training and most of them are topnotchers. Nineteen are trotters with 10:15, 11:15, and 12:15 of this number have won marks below 2:10, while eight have won marks below 2:00. 3:40. 2:03 1-4, Pearl Penoke, 2:03 1-4; Holmwood, Leonard, 2:03 3-4; Pita Bruin, 2:04 1-4; Mack, Anna, 2:04 1-2; and Clyde the Great, 2:04 3-4.

## Frenzied Finance Gets Big Play

LEFT TO RIGHT: MARTY O'TOOLE, BILLY KELLY.

**By BILLY EVANS**  
 Who started "frenzied finance" in baseball, relative to the purchase of minor league stars.

Fifteen years back, if some "push league" phenom sought by a half dozen major league clubs brought \$7,500 it was regarded as a fabulous price to have paid for an untired recruit.

Those days, however, are over, for at present there is no limit to what a big league will pay for a player of promise.

The increased value now placed on the bush leaguer also goes for the veteran who is rated as one of the outstanding stars.

When Eddie Collins was sold by Connie Mack to the Chicago White Sox the price was reported as \$50,000. That is probably what it was, certainly no more.

The other day the wires carried a story that the Boston Red Sox had purchased infielder Dudley Lee from the Tulsa (Okla.) club of the Western League for \$50,000.

**Fancy Price for Rookie**  
 Lee Fohl, manager of the Browns, tells me that someone slightly padded the figures in the Lee case, the exact amount being much closer to \$25,000 than \$50,000. Even at that here is a club paying at least half as much for a youngster as did the Chicago club for Collins, then rated the best second sinner in the game.

When John McGraw paid the Indianapolis club of the American Association \$11,000 for Rube Marquart it was heralded as one of the sporting sensations of the year. It was used as first page news.

Yet to my way of thinking the sale that started "frenzied finance" in baseball with relation to buying minor league stars was the deal that Barney Dreyfus of the Pittsburgh club made for the famous St. Paul (Minn.) battery, O'Toole and Kelly.

Remarkable pitching by O'Toole, who was a spit-baller, caused practically every major league club to bid for him. Dreyfus finally secured O'Toole and his catcher, Billy Kelly, for the sum of \$22,500, a figure heretofore unheard of in baseball.

For weeks the magnitude of the transaction was the main topic of conversation on the sport pages of the country.

**Check Proves Big Sale**  
 In certain quarters the sale price was regarded as rather "lumpy." The St. Paul club finally produced the canceled check as proof. Said check was reproduced in as many papers as the photographs of O'Toole.

O'Toole proved more or less of a fizzle. The possessor of a deceptive spitball, he lacked control, and when the major leagues waited him out has

## DANVILLE JUNIORS DEFEAT CHATHAM

Danville V. M. C. A. Intermediate team defeated Chatham school second team by the score of 15 to 10. The "Y" boys put up one of the best games of the season and the game was full of action from the first whistle. At the close of the first half the score was 8 to 4 in favor of the local boys but the "raining" school quint got loose in the second half and the "Y" intermediates were unable to hold them despite the fact that the "Y" exerted every effort. The team work and passing of the Danville lasketeers made a fine impression on the large crowd of hoop fans who witnessed the game. The game was a credit of outstanding stars but the whole quint did their best to put the game on ice.

**The Line up:**  
 "Y" Intermediates Pos. C. T. S. Jordan  
 Reynolds ..... Forward  
 McCubbins ..... Center  
 Culpepper ..... Guard  
 Noderer ..... Guard  
 Summary—Scoring: Danville: Jordan 6; Reynolds 5; McCubbins 2; Culpepper 1; Noderer 2. C. T. S. Jordan 3; Smith 2; Dulse 4; Kerfoot 4. Substitutes: C. T. S. Kerfoot for Hooker, Danville none.

Mr. Ian Dickerson accompanied the Y. M. C. A. Intermediates to Chatham.

**GAMES ARE SCHEDULED**  
 WASHINGTON, Jan. 26.—Georgetown will play Harvard and Yale in basketball here on April 17 and 19, respectively, according to the schedule made here tonight. Twenty-seven games will be played, there dates undetermined yet.

## SPORTS GOSSIP

More indoor golf schools have been opened this winter than ever before in the history of the sport. Many noted professionals who formerly went south for the winter are remaining behind to act as instructors in these schools. One of the biggest of its kind in America is in Chicago, supervised by Bob MacDonald, siege runner of the links.

The leading colleges of the east are said to be considering an umpire system for baseball that will be along the same lines as that employed by the major leagues. A veteran big league umpire will be the chief, and he will select and assign the other umpires, as well as working the important games himself.

It is reported that Manager Murphy is on a scouting trip down in Georgia trying to dig up some prospective Tobacconists for next season. Since several of last year's men won't be back, it is probably true, for Herb will need a flock of new tossers to fill the vacant positions on the club. May he have as much success in scouting talent as he did last year Charlotte can be depended upon for a couple of players in Danville gets first choice of the Hornet cast off, there being an agreement between the two clubs to this effect.

Durham is endeavoring to procure a new park for the home battles before the Bulls next summer. The old field has become inadequate to meet the demands of the patrons and is situated in an out-of-the-way place with the management has been dickering with Trinity College authorities in an effort to obtain the college diamond but no agreement so far has been reached. The old park is in pretty bad shape in the way of stands, although the fences were at a right angle to a slugger had to wallop the old apple pretty briskly to sail it over the fence.

## DANVILLE GIRLS BEATEN BY S. B. SIX

**SOUTH BOSTON, Va., Jan. 26.**—The Danville High School girls' sextette lost here tonight to the South Boston six by the close score of 11 to 9. The score indicates the hard fight that was made throughout the game. Both Danville High and the local team played excellent ball and it was not until the last whistle was blown that the winner was definitely decided.

**The line-up:**  
 South Boston Position  
 Noblin ..... forward  
 Irby ..... forward  
 Huckabee ..... center  
 Hodges ..... center  
 Bishop ..... guard  
 Bass ..... guard

## "Y" JUNIORS BEAT SO. BOSTON TEAM

**SOUTH BOSTON, Va., Jan. 26.**—The Danville intermediate "Y" basketball team defeated the South Boston High second team here tonight by the score of 21 to 8. The visitors had the locals outclassed at the way.

**The line-up:**  
 South Boston Position  
 Bane ..... forward  
 Penick ..... forward  
 Green ..... center  
 Bennett ..... guard  
 Hubbard ..... guard

THE UNIVERSAL CAR

## Forecasting A Tremendous Spring Demand

# 739,626

more Ford cars and trucks were produced last year than the previous year, an increase of over 50 per cent.

In spite of this tremendous increase in production, it was impossible to meet delivery requirements during the spring and summer months when orders for 350,000 Ford Cars and Trucks could not be filled.

This year winter buying for immediate delivery has been more active than ever before—and in addition 200,000 orders have already been booked through the Ford Weekly Purchase Plan for spring delivery.

These facts clearly indicate that the demand during this spring and summer will be far greater than ever, and that orders should be placed immediately with Ford Dealers as a means of protection against delay in securing your Ford Car or Truck or Fordson Tractor.

Detroit, Michigan

A small deposit down, with easy payments of the balance arranged, or your enrollment under the Ford Weekly Purchase Plan will put your order on the preferred list for spring delivery.

Lost: Columbia Cord Tire, 33x3, With rim and cover. \$5.00 reward returned. Phone 505. 2b2b

### LORD MAJOR OF CORK RESIGNS

(By the Associated Press)  
CORK, Jan. 26.—Lord Major Donoghue has resigned. He is an ardent Republican but had been absent from his official duties for a year, so the Cork City council recently decided to withhold his salary. His absence was explained by saying he had been occupied with work for the Republican movement on which ticket he was elected.

### FERDINAND CAN'T RETURN

(By the Associated Press)  
SOFIA, Jan. 26.—The revival of the report that King Ferdinand was to return to Bulgaria is said to be due to the fact that Premier Zankoff's denial of the original rumor was garbled in transmission. What he really said was, "Ferdinand can return, but only as a corpse. In that character we are fully prepared for him." The words "only as a corpse" were dropped in the circulation of the statement.

### TIMID ABOUT HER AGE

RIPON, Yorkshire, Eng.—A woman's desire to hide her age has persisted here even unto death. A school teacher's will specifies no date of her birth be made upon her tombstone.

One of His Many  
Wives Traps Him  
For the Police

(By Chicago Tribune Service)  
CHICAGO, Jan. 28.—Joseph Peters, alias Joseph "Martyr," said to be a professional "marrier," made the mistake of not keeping a card index of his wives. Hence, when he tried to win back one of his flock he had deserted three years ago, he fell foul of the law.

Mrs. Bertha Woolke, 45, who says she is one of his dozen or more wives, proved his nemesis. Today she met him by appointment, at a secret rendezvous and a policeman, waiting nearby, took Mr. Peters, alias Englem to the house.

"I was married to Peters four years ago," she told Judge Caverly in criminal court. "He painted glowing pictures of the lands we would visit. A few weeks after our marriage he said it was necessary for him to go to Europe to settle one of his estates, and that he would send for me and turned over to him most of my property and that was the last I saw of him."

This wife traded him unsuccessfully, by and finally she had a want-ad in the papers, describing herself as an attractive widow with abundant property and desirous of meeting a handsome man who knew how to travel and spend money.

The next day she received a reply and immediately recognized the handwriting. She then opened correspondence, established his identity and then arranged the trap into which he walked today.

**NEW YORK COTTON.**  
(Associated Press Leased Wire)  
NEW YORK, Jan. 28.—The cotton market opened barely steady today at a decline 12 to 16 points and sold off to 32.80 for March and 33.10 for May or about 47 or 41 points net lower during the early trading. The cables made a relatively steady showing in the continuance of the British rail strike but the market here appeared to be influenced by unfavorable reports of cotton goods trade and domestic mill curtailments. Offerings were not heavy but there were few buyers on the early break.

March ..... 33.15  
May ..... 33.43  
July ..... 32.06  
October ..... 27.80  
December ..... 27.50

American motion picture producers annually turn out more than 150,000 miles of film.

The United States had a flagseed crop of 11,700,000 bushels in 1922. Cattle are used to harpoon whales now, and there is little danger to whalers.

It is estimated more than 300 different languages are spoken throughout the world.

## MORNING STOCK LETTER

Thomson & McKinnon  
NEW YORK, Jan. 28.—A phrase sometimes popularly known as "buy high priced stocks" is very comfortably situated and can enjoy the thrill of a ten to twenty point reaction then all is well; but I want to tell you that if the lower priced stocks and the medium priced stocks, if the \$100 stocks are not worth buying, you had better keep away from the high priced ones, because if the lower priced ones are going down, the high priced ones will, but, at much faster rate.

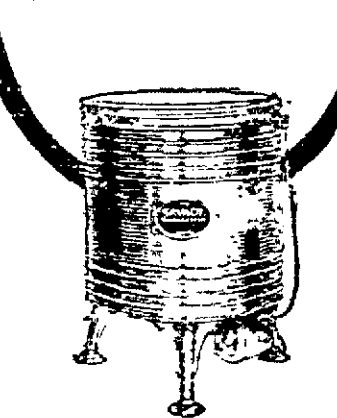

I have been trying my best for some time to point out to you certain fundamentals which, in my opinion warranted high prices for stocks, but I have not seen anything that warrants a runaway market just now. So just keep cool and just remember that best results follow conservative action. We may run into a reaction very soon.

The Temple of Neptune, the ruins of which still stand at Paestum, in southern Italy, is held to be the finest specimen of Doric architecture outside of Greece. Paestum Play owes its origin to a vow made by inhabitants of the village in 1633 in expression of gratitude at the cessation of the plague.

SAVAGE ELECTRIC

Japan Protests  
Against Proposed  
Immigration Law

(By Chicago Tribune Service)  
WASHINGTON, Jan. 28.—A protest has been made by Japan to the United States government against the proposed immigration law now pending in the American congress that would bar all immigration to this country.

The gentleman's agreement, although it always has been kept secret, closely restricted immigration to the United States. Californians and residents of other western states, however, have made repeated charges that Japan was not living up to the agreement and that the Japanese population in the western part of the United States has been increasing steadily. Instead of decreasing, as contemplated by the agreement, it has increased.

The Japanese note whose receipt by the State Department was revealed today, does not attempt to contest the right of the United States to pass whatever law it desires to deal with the immigration question. Rather does the note from Ambassador Hanihara tend to make the question an issue of whether the United States desires to discriminate against a friendly country. As the United States Supreme Court has ruled that Japanese cannot be naturalized in America, the Japanese communication is understood to hold that the effect of the passage of the pending immigration bill would be to write into law that Japanese are inadmissible to the United States. The communication from Japan's ambassador is described as taking particular exception to such a situation. It indicates that the enactment of the immigration bill would be discrimination against Japanese as compared with the national of other friendly powers and would be a slight to the dignity of Japan.

## NEW YORK STOCKS.

(Associated Press Leased Wire)  
NEW YORK, Jan. 28.—Considerable irregularities developed at the opening of today's stock market. Steels and most of the rails held firm but fresh selling broke out in Pan-American B, which dropped 15-8 and Sinclair, which yielded fractionally. American Car and Foundry advanced 1 point and Pacific Oil moved up fractionally to a new high since 1922. The market continued spotty in the early dealings. General Electric broke five points in reflection of the federal trade commission's alleged monopoly on Radio devices. Famous players and Davidson dropped more than 2 points and the Pan-American issues recovered their early losses. Foreign exchange opened unchanged.

## NEW ORLEANS COTTON.

(Associated Press Leased Wire)  
NEW ORLEANS, Jan. 28.—Absence of any special support of encouraged selling movement in cotton today and prices fell 17 to 39 points in the first half hour. March declined to 32.80 and October to 27.15. Offerings were increased by the weather map, which indicated was more moderate temperatures in the cotton region and no great amount of rain. Brokers received more hopeful reports from sections of Texas regions. March ..... 32.79  
May ..... 33.60  
July ..... 31.96  
October ..... 27.25  
December ..... 26.90
